Dear St. Luke Families,

This day and age, our children are more connected to phones and internet than ever before. This week, I wanted to share with you some helpful tips from www.netsmartz.org regarding internet safety. Please feel free to visit the site for additional resources.

Here are some internet safety tips from NetSmartz. *Children use a variety of online services, and each of these services can have different safety concerns. However, there are some basic tips which you can employ no matter how your children use the Internet.*

- *Keep the computer in a high-traffic area of your home.*
- *Establish limits for which online sites children may visit and for how long.*
- *Remember that Internet technology can be mobile, so make sure to monitor cell phones, gaming devices, and laptops.*
- *Surf the Internet with your children and let them show you what they like to do online.*
- *Know who is connecting with your children online and set rules for social networking, instant messaging, e-mailing, online gaming, and using webcams.*
- *Continually dialogue with your children about online safety.*

Blessings,

Mrs. Lopez

Dance-A-Thon

Our annual Dance-a-Thon is around the corner! Information will be sent home in your child's backpack regarding this enjoyable fundraising event. Please be sure you help by personally pledging and helping your child to get additional pledges for this event. We hope that each child raises at least $100 in pledges for the Dance-a-thon!

Fall Festival

We are in search of volunteers to help oversee the following committees:

- Communications
- Game Booths
- Clean-Up

We are also in search of new ideas for game booths. If you are interested in volunteering or would like to share a great idea, please contact Jessica Pagan at jep1620@gmail.com

Volunteers Needed

Want to start earning your hours and helping our school? We are in search of some volunteers to assist Mr. Garcia with various maintenance projects throughout our campus. If you are able to help, please contact Mr. Garcia at: maintenance@stlukeparish.com

Donations, please!

We are currently in need of donations of red mulch to spruce up our grounds. We also need dixie cups, ice packs, and ziplock bags (quart and gallon sizes) for our clinic. If you are able to help, please bring donation to the main office.

Protecting God's Children/Virtus

VIRTUS Excellence Builds Trust

As a reminder, the Protecting God's Children Class will be held on Saturday, September 24th (Spanish). It is very important that all parents who plan to volunteer at the school complete this class. If you participated in the past, you do not have to do it again. This is a one-time training. In order to register, follow these directions:
Go to www.diocesepb.org
On right hand side, Click on "Safe Environments"
On left hand side, Click on "Virtus Training"
A screen will come up listing all upcoming workshops, be sure to click on St. Luke Saturday, September 24 (Spanish) 9am-12pm.
Attendee simply clicks on "START REGISTRATION" and completes the registration from there.
*Please note, all attendees must follow the above directions and pre-register for this training.

Karate Classes

Give your child the opportunity to develop self-discipline, character self, control, and confidence through martial arts training. Classes will be taught by Sensei Tom Floyd. He holds a 3rd degree black belt in Kempo karate and has been working in various Catholic schools for 9 years. Classes are once a week with a 30 minute class for Pre-K students and a 45min class for students K-8. Tuition is paid monthly: $40 for Pre-K and $50 for K-8. If you are interested, please contact Mrs. Martinez.

Follow us on social media

Facebook https://www.facebook.com/stlukecatholicschool. We are always positing updates, new and upcoming events, pictures, and showing our Spartan Pride. We want your feedback!
Twitter **@StLuke_ND_ACE** Keep up with St. Luke! We are tweeting out important information, educational resources, and capturing school wide fun. Twitter will help you stay informed with what matters most.
Instagram **@stluke_nd_ace** Here we will be posting pictures of our classes, learners meeting their goals, and showcasing why it's great to be a Spartan. Stay connected with us through pictures!

24 de septiembre - entrenamiento Protegiendo a los Hijos de Dios en español

27 de septiembre - Reunión del HSA y del Trunk or Treat 6pm

30 de septiembre - 8:15 am Misa

Separen la Fecha

21 de octubre - Notre Dame ACE Academy Kick-Off

Alertas en Mensajes de Texto

Reciba mensajes de texto de SLCS directamente a su teléfono enviando a este # 81010 y con este mensaje: @chg78

Queridas Familias de St. Luke,

En los tiempos de hoy, nuestros hijos están más conectados a los teléfono y al internet que antes. Esta semana, quiero compartir algunos puntos de ayuda de www.netsmartz.org en cuanto a la seguridad en el internet. Aquí algunos puntos sobre la seguridad en el internet de NetSmartz. Los niños usan una variedad de servicios en línea, y cada uno de esos servicios puede tener diferentes preocupaciones de seguridad. Sin embargo, aquí algunos puntos básicos que usted puede implementar sin importar como sus hijos usan el Internet.

- Mantenga la computadora en un área de movimiento de personas en su casa.
- Establezca límites de lugares en el internet que su hijo puede visitar y por cuanto tiempo.
- Recuerde que la tecnología del Internet es móvil, así que asegúrese monitorear teléfonos celulares, juegos portátiles y ordenador portátil.
- Navegue por el internet con sus hijos y déjelos que le muestre lo que le gusta hacer en línea.
- Sepa quien se conecta con sus hijos en línea y establezca reglas par alas redes sociales, mensajes instantáneos, correo electrónico y el uso de cámaras web.
- Dialogue constantemente con sus hijos sobre la seguridad en el Internet.

Bendiciones,
Sra. López

Dance-A-Thon

Nuestro Dance-A-Thon anual está a la vuelta de la esquina. La información será enviada a la casa en la mochila de su hijo respecto a este evento de recaudación de fondos. Por favor asegúrese de ayudar al comprometerse personalmente y ayudar a su hijo obtener compromisos adicionales. Nuestra meta es que cada niño tenga al menos $100 en los compromisos para el evento.

Festival de Otoño

Estamos buscando voluntarios que se encarguen de los siguientes comités:

- Comunicaciones
- Puestos de Juegos
- Recogido

También estamos buscando nuevas ideas para los puestos de juegos. Si usted está interesado en ser voluntario, o tiene una gran idea, por favor comuníquese con Jessica Pagán a jep1620@gmail.com

Necesitamos Voluntarios

Quiere comenzar a obtener sus horas y ayudar a la escuela? Estamos buscando voluntarios que puedan ayudar al Sr. García con varios proyectos de mantenimiento en el campus. Si puede ayudar, por favor comuníquese con el Sr. García a: maintenance@stlukeparish.com

Donaciones, por favor

Actualmente necesitamos donaciones de "mulch" rojo para nuestro campus. También necesitamos vasos "Dixie", paquetes de hielo y bolsas "ziplock" (de cuarto y galón) para la clínica. Si puede ayudar, por favor traiga su donación a la oficina principal.

Protegiendo a los Hijos de Dios/Virtus

VIRTUS Excellence Builds Trust

Como recordatorio, la clase de Protegiendo a los Hijos de Dios será el sábado 24 de septiembre en español. Es muy importante que todos los padres que planifican participar como voluntaries en el colegio tomen esta clase. Si usted ya la tomó en el pasado, no tiene que volver a tomarla. Es un entrenamiento de una sola vez Para poder registrarse, favor de seguir estos pasos:
Vaya a www.diocesepb.org
A mano derecha pulse en "Safe Environments"
A mano izquierda pulse en "Virtus Training"
Una pantalla le saldrá con un listado de las próximas conferencias. Asegúrese presionar donde dice St. Luke Saturday, September 24 9am-12pm.
Los asistentes simplemente pulsan en "START REGISTRATION" y de ahí terminan la registración.
*Por favor tome nota, los asistentes deben seguir las instrucciones de arriba y pre-registrarse para el entrenamiento.

Clases de Karate

Dele a su hijo la oportunidad de desarrollar la autodisciplina, el auto carácter, el control y la confianza a través de entrenamiento de artes marciales. Las clases serán impartidas por el Sensei Tom Floyd. Tiene un grado de cinturón negro 3 en Kempo karate y ha estado trabajando en varias escuelas católicas durante 9 años. Las clases son una vez por semana con una clase de 30 min. para Pre-K y de 45 min. para los de K-8. La matrícula se paga mensualmente: $0 para Pre-K y $50 para K-8. Si está interesado, comuníquese con la Sra. Martínez.

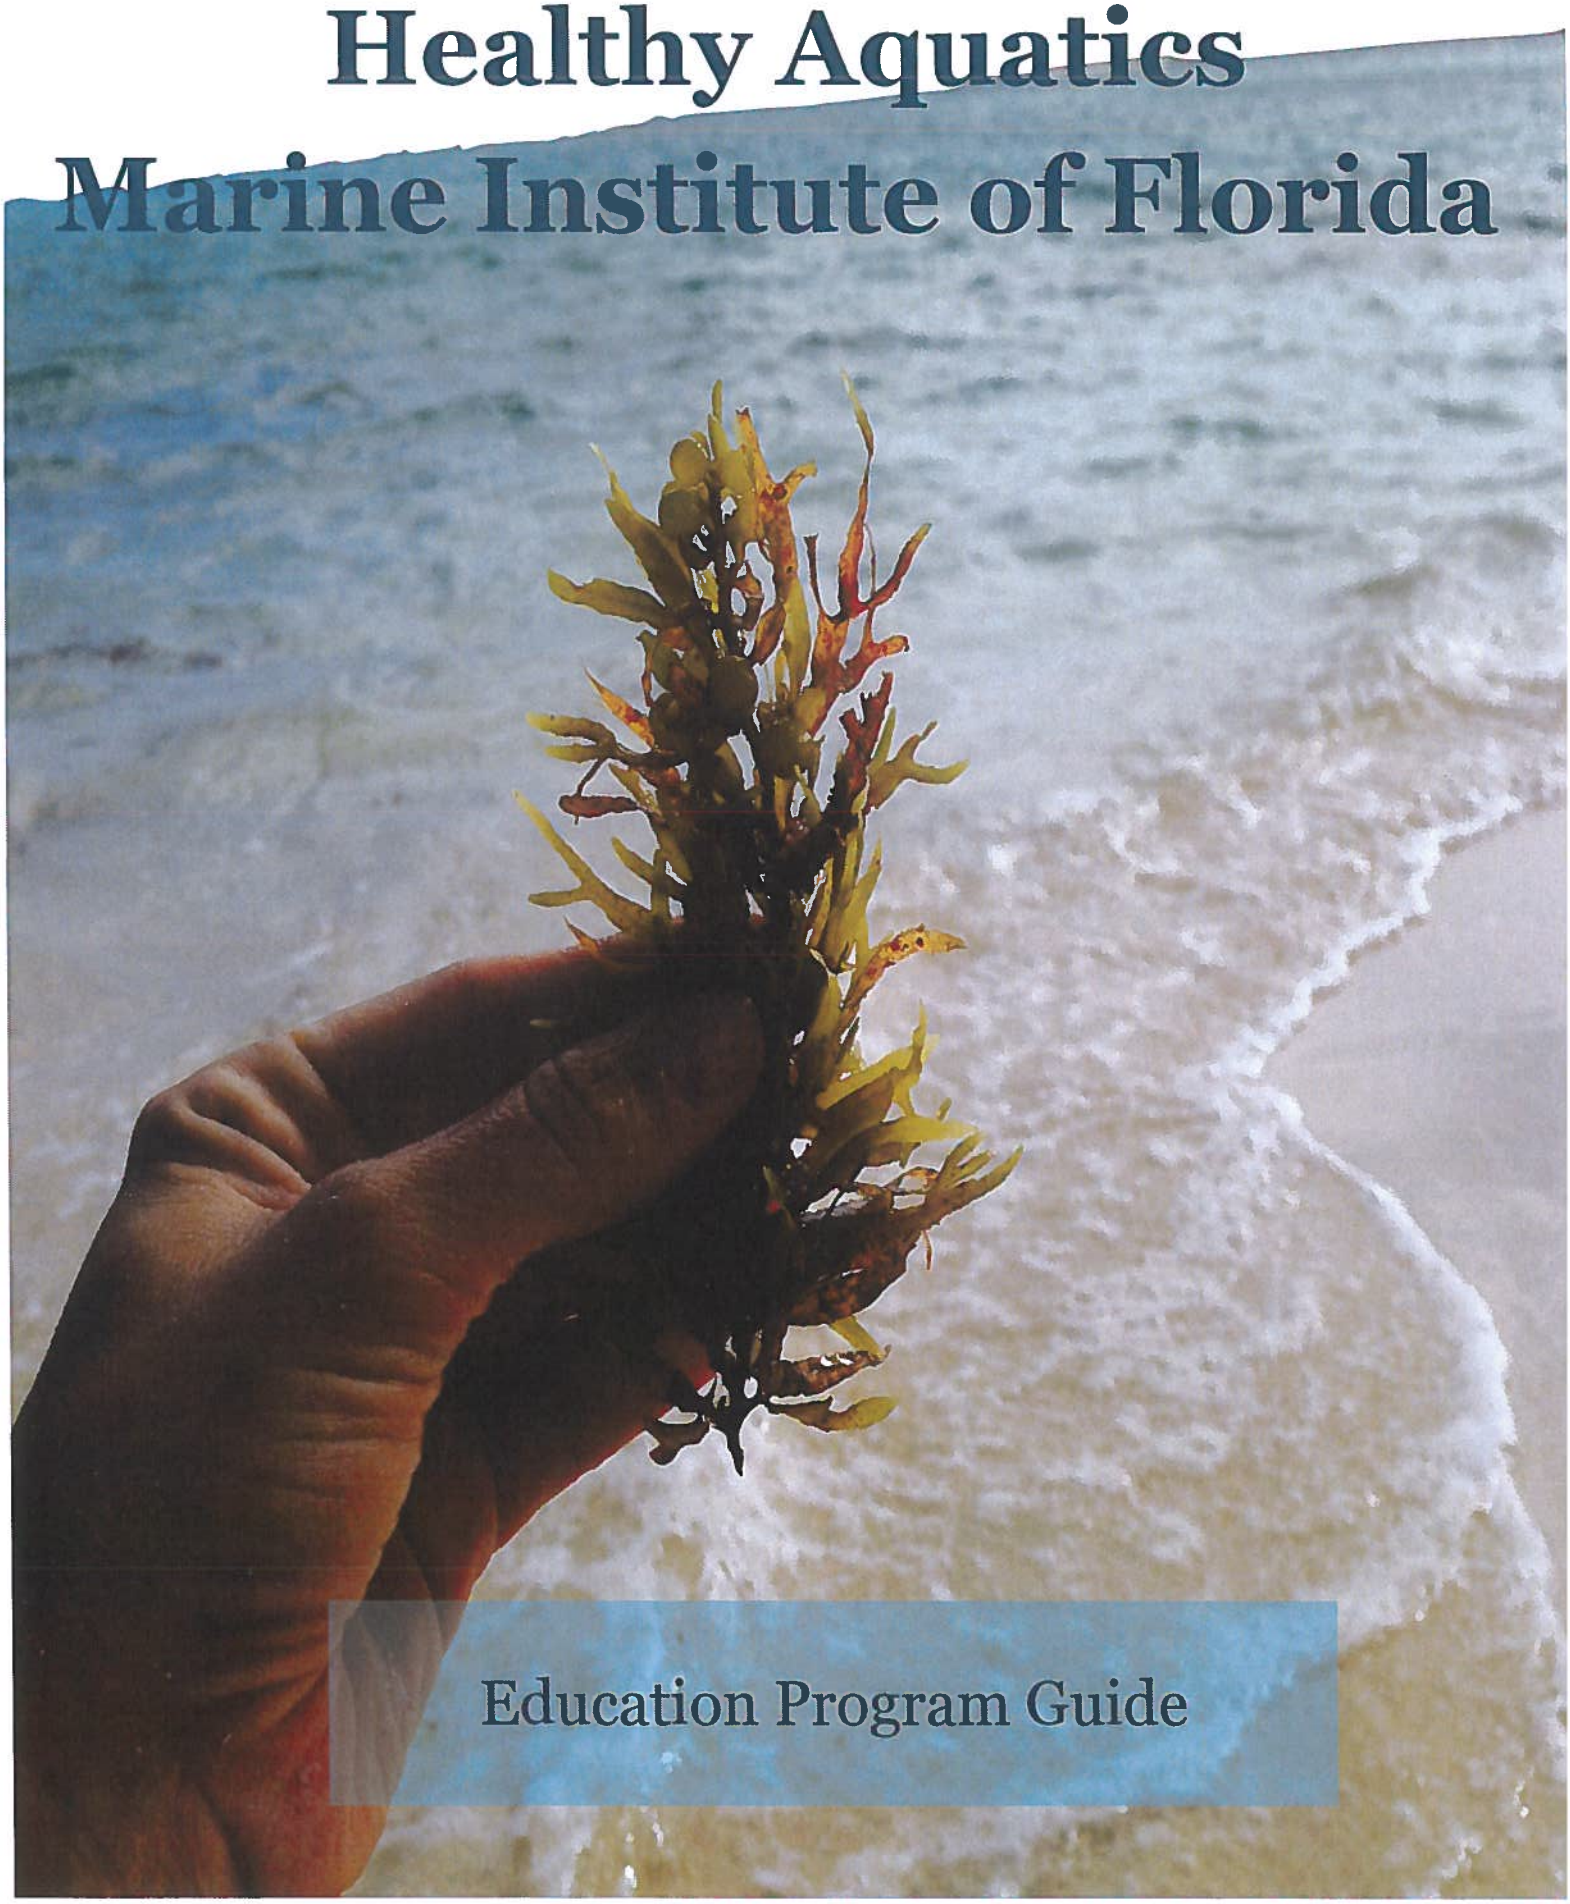
Healthy Aquatics
Marine Institute of Florida



Education Program Guide

About Us

Healthy Aquatics Marine Institute of Florida is dedicated to using science, technology, education, and research to promote ocean conservation through hands on learning. We also believe that empowering children with the knowledge to preserve our natural world today will ensure future stewards and pioneers of tomorrow. This unique educational focus makes us a one- of- kind aquarium, educational facility, and community.

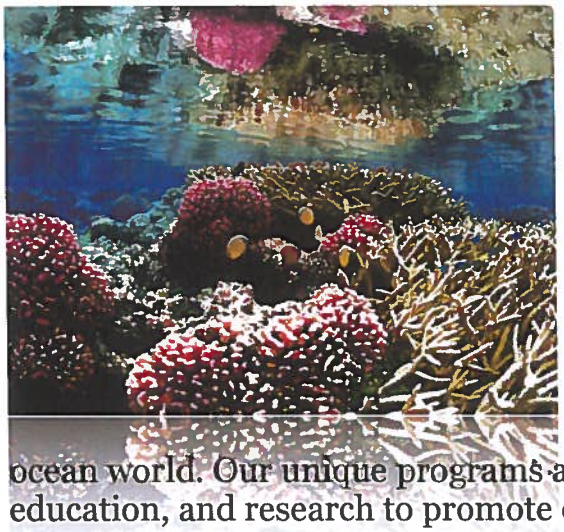
We are currently a 3,600 square foot multi zoned station in Boynton Beach, Florida. Our facility is zoned for aquaculture and uses full lab facilities and classroom space for education and research. Our multidisciplinary approach offers a unique educational experience and all programs are aligned to meet state and national academic standards.

Healthy Aquatics also has satellite locations on Marathon Key, in the Florida keys. This outpost serves as a staging area for collecting classes and marine collection utilizing special licenses for both retail and education. We additionally have space for collecting and research rights granted by the Bahamian government on Andros Island, Bahamas which serves as a logistical site for our educational and research activities overseas.

Why Learn Marine Science?

More than 70% of the earth's surface is covered with ocean, yet humans have only begun to scratch the surface to fully understanding its complexity. The air we breathe, the food we eat, and even the water we drink are all connected to the sea.

Major changes are happening to this once thought unchangeable vastness. The oceans dynamically balance our atmosphere and buffer changes in climate, but we are already seeing signs of an irreversible shift. Our security, our economy, and our very survival depend upon the health of our oceans.



Despite the vital role the ocean plays in our daily lives, we are noticing an increasing disconnect between young people and this blue planet. Heavily scheduled agendas and the majority of children's time spent indoors, result in an alarming disconnect with our marine world. We need to dive back into this magnificent habitat and learn how to become advocates for a healthy ocean.

Healthy Aquatics multidisciplinary approach encourages learners of all ages to set sail on an adventure to reconnect and learn to appreciate our ocean world. Our unique programs are dedicated to using science, technology, education, and research to promote ocean conservation through hands on learning experiences. We passionately believe that empowering students with the knowledge to preserve our natural world today will ensure future stewards and pioneers of tomorrow.

"For in the end, we will conserve only what we love.
We will love only what we understand.
We will understand only what we have been taught."

~Baba Dioum

Aquaponics Learning Lab

The Aquaponics Learning Lab has been designed by staff marine biologists, aquaculturists, and veterinarians to allow teachers to transform their classroom into a kinesthetic learning experience for students. This enhances traditional physics, biology, chemistry, and ecology lecture based learning by placing tools, technology, and live organisms directly in the hands of the students. Merging the cutting edge sciences of aquaculture and hydroponics, the Aquaponics Learning Lab's multidisciplinary approach builds a teaching foundation for young students while also serving as an in-depth learning tool for more advanced students.

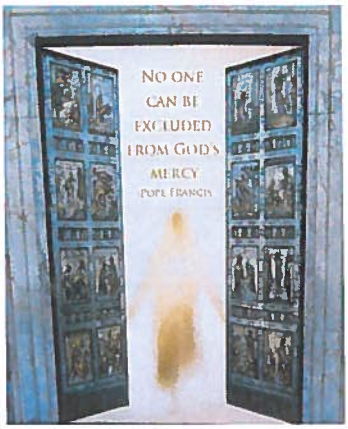
This unique educational module provides your students with the opportunity to actively participate in meaningful STEM based learning. The aquaponics system will serve as mini laboratory system in the classroom and will be set up and maintained by Healthy Aquatics trained staff. Parameters such as growth and ecological interactions can be monitored throughout the school year by students. Up to 8 (1) hour lessons will be conducted throughout the school year by Healthy Aquatics staff using the living ecosystem as the model for learning.

Supplementing your existing curriculum with our programs will improve ocean and environmental literacy to inspire students to seek careers in marine science, technology, engineering, and mathematics. Whether teaching about the foundational principles of life through photosynthesis or about the advanced genetic principles of biology, Healthy Aquatics' Aquaponics Learning Lab is a living breathing example of scientific principles in action!

Click here to apply for your Classroom Aquaponics System.

Jubilee Year of Mercy

Friday Night Lecture Series on Mercy and the Family



Join us for the next featured speaker on Friday, September 16 at the Cathedral of St. Ignatius Loyola for a captivating one hour talk beginning at 7 P.M. followed by an opportunity to "meet & greet" the speaker. There is no charge, but a free will offering will be taken.

September 16, 2016

~ Featuring ~

Dr. Marcellino D'Ambrosio

on "The Holy Year of Mercy"

Cathedral of St. Ignatius Loyola
9999 N. Military Trail Palm Beach Gardens, FL 33410

From a colorful and varied background as a professor of theology, a father of five, business owner, and professional performer Marcellino D'Ambrosio crafts talks, blog posts, books, and videos that are always fascinating, practical, and easy to understand. He is a TV and radio personality, New York Times best-selling author, and speaker who has been leading people on a journey of discovery for over thirty years.
